DETAILED ACTION

1. This Office action is in response to Applicant's Appeal/Brief, filed on 12/10/2004.

2. Regarding the status of the claims in the instant application, the Examiner has found a 101 non-statutory subject matter. The Examiner is obliged to apply the newly found 101 non-statutory subject matter rejection. Thus, the finality of the prior Office action has been withdrawn. The Examiner regrets the delayed process of the application. Accordingly, claims 1-23 are pending.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

> Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-23 are rejected under 35 U.S.C. 101 because it is directed to non-statutory subject matter, specifically, as directed to an abstract idea.
Managing account transactions not claimed as embodied in computer as descriptive material per se are not statutory because they are neither physical thing nor statutory processes. The claim recites a method for managing accounts which do not define any structural and functional interrelationships with a general purpose computer for permitting the claimed functions to be realized. In contrast, a statutory claim would define structural and functional interrelationships between data structures or functional parts and a computer which permit the data functions to be realized. Thus, the claim is

rejected as being non-statutory as described above. Applicant is advised to include a computer or processor in the claims in order to overcome the 101 rejection.

NOTE

5. Claims 1-23 would be allowed if Applicant overcomes the 101 rejection.
